

About Clinic Management Software by iSaaSPro

Clinic Management Software by iSaaSPro is an all-in-one cloud-based application designed for hospitals, clinics, and healthcare professionals to streamline daily operations. It helps manage patient records, appointments, prescriptions, billing, and inventory — all from one secure platform. Being 100% cloud-based, it allows doctors and staff to access data anytime, anywhere, ensuring efficiency, accuracy, and better patient care.

Key Features

-  **Patient Management** – Register and track patient details, medical history, and visit records easily.
 -  **Appointment Scheduling** – Manage appointments, reminders, and doctor availability in real time.
 -  **Prescription Management** – Generate and print digital prescriptions with custom templates.
 -  **Billing & Invoicing** – Simplify payments with automated billing, receipts, and multi-payment options.
 -  **Reports & Analytics** – Get detailed insights on revenue, patients, and performance metrics.
 -  **Cloud-Based Access** – Access your clinic data securely from any device without software installation.
 -  **Multi-Clinic & Multi-User Support** – Manage multiple clinics, doctors, and departments with role-based access.
 -  **Inventory Management** – Track medicines, supplies, and stock levels efficiently.
 -  **Data Security** – Encrypted data protection with regular backups on cloud servers.
