CheckMate by iSaaSPro.com is a smart, cloud-based Time Attendance Management System designed to help businesses automate employee attendance, enhance workforce productivity, and eliminate manual errors. With advanced biometric technology, real-time monitoring, and seamless reporting, CheckMate ensures accurate time tracking for organizations of all sizes.

Whether you're managing a small team or a large enterprise, CheckMate delivers a complete attendance automation solution with modern features, powerful analytics, and secure cloud access—anytime, anywhere.

## Key Features

### ✓ Accurate Time Tracking

Automatically records employee check-in and check-out times, reducing errors and preventing time theft.

### ✓ Improved Productivity

Streamlines attendance management, helping HR teams save time and focus on strategic activities.

### ✓ Real-Time Monitoring

Track attendance status live from the web or mobile app—view who is present, absent, late, or on leave instantly.

### ✓ Biometric Authentication

Supports fingerprint, face recognition, RFID, and mobile-based authentication for secure and reliable verification.

### ✓ Cloud-Based Dashboard

Access attendance data, reports, and analytics from any device with advanced role-based access control.

## ✓ Automated Reports

Generate daily, weekly, and monthly attendance reports, late/early logs, overtime, and shift-based summaries.

## ✓ Shift & Leave Management

Supports multiple shifts, rotational schedules, and integrated leave management for smooth workforce operations.

## ✓ Payroll Integration

Easily export data or integrate with payroll software for accurate salary processing.

## ✓ Alerts & Notifications

Receive automated notifications for late entries, absences, overtime, or policy violations.
